

Tennessee State Loan Repayment Program

Applications for the Tennessee State Loan Repayment Program (TSLRP) are currently being accepted for primary care physicians with a specialty in family medicine, internal medicine, osteopathic general practice, pediatrics, obstetrics/gynecology or geriatrics. If you are a physician that provides primary care in a non-profit ambulatory clinic facility located in a federally designated shortage area or HPSA, you could be eligible to receive up to \$70,000 in educational loan repayment for an initial two year service commitment. If you still have outstanding educational loans after fulfilling your initial service commitment, you can apply for an additional \$35,000 per year for up to five years.

For more information including eligibility requirements and instructions on how to apply for Tennessee State Loan Repayment (TSLRP), copy and paste (or what ever instructions your web master chooses) the link below to your browser:
